Australia's Ghost Whisperer

## MEDIA RELEASE

**ANTHONY GRZELKA**, 41-year-old father of three is one of Australia's leading Spiritual Mediums and the man dubbed "Australia's Ghost Whisperer". Since finding his way as a Medium back in the early 1990's Anthony has embraced the spirit world and developed his skills to connect those who have passed to those in the living.

**Anthony** stepped into the media's psychic spot light just over six years ago and has rapidly risen to international acclaim. A chance reading from the well known American Medium **James Van Praagh**, led to a series of doors being opened for Anthony. He was offered the opportunity to contribute to the highly popular Van Praagh website, and is one of only two Australian Medium's recommended by Van Praagh, the **co-executive producer of TV's "Ghost Whisperer"**.

Anthony's approach to helping people deal with grief and achieve spiritual wellbeing is down-to-earth, practical and achievable. And his skill for connecting with and conveying messages from loved ones passed is simply astounding. The accuracy and level of detail given to him is spellbinding. Years of grief, guilt, anguish, or even hatred can dissolve with the utterance of one sentence or a simple turn of phrase from spirit. Individuals and audiences alike leave Anthony feeling a great sense of comfort, love, and relief. But more than that, faith is restored—there is life after death. Anthony's second book *'Life & Beyond: a medium's guide to dealing with grief and loss'* (2008) is a run-away success, because of his unique talent when it comes to healing with messages of love from Beyond.

His TV appearances include top rating television programs like Channel 7's *Weekend Sunrise*, where Anthony read host Lisa Wilkinson; Channel 9's "Mornings with Kerri-Anne" and "Today"; Channel 10's "9am with David & Kim"; and a variety of ABC programs such as "Sweet and Sour", "Can we help you" and the "Couch".

On radio Anthony has been interviewed by the ABC in Perth, Melbourne and Adelaide; The Cage on Triple M in Sydney and Melbourne; 2GB, 2UE, Radio 2 and MIX in Sydney; and 6PR, Nova, Curtin FM and Triple J in Perth. Anthony has several regular radio spots on local (WA) radio station HOT FM with Chippy & Nay, Curtin FM and Nova 93.7 FM with Nathan & Nat in Perth, plus his very popular weekly segment in the eastern states on 'The Night show with Christo' — Classic Hits WSFM 101.7 – Sydney, Gold 104.3 – Melbourne, 4KQ 693 - Brisbane & MIX 102.3 Adelaide. Whenever Anthony appears on radio the response from the public is incredible and the phone lines are overloaded with callers wanting to talk with him.

Anthony often features in magazines like *New Idea*, *Who Magazine* and *Take 5*. His special brand of mediumship continues to grow and expand into new areas. Consequently, he is now being sought worldwide. *New Idea* ran a noteworthy article focusing on Anthony's rare ability to connect with people who have not passed, but due to illness or disability are unable to speak for themselves. Anthony pioneered this method of communication he aptly refers to as **"Soul Talking"** and his incredible success has led to a request from a team of USA doctors specializing in early onset Alzheimer's, to spend time in the USA testing his Soul Talking technique.

Anthony has also worked as a Psychic Detective on investigations in Australia and in the USA, including the highly controversial Lacy Peterson case through invitation from the Madesto Police in California. Information he received from spirit has not only validated facts about the case, but has added further pieces to the jigsaw puzzle. More recently Anthony has been asked to assist the Major Crimes Division in Perth.

Australia's Ghost Whisperer

In the last two years Anthony in collaboration with Psychic Scott Russell Hill have presented a series of live shows throughout Western Australia, aptly titled “**The Psychic & The Medium**”. The sell-out success of these shows is a testament to Anthony and Scott’s ability to interact openly with a live audience providing a cutting edge, spiritual experience.

Despite Anthony’s unprecedented success, his down-to-earth charismatic charm is entertaining *and* enlightening. All of which is captured in his first book **Medium Down Under** (2007).

Anthony travels extensively throughout Australia, delivering seminars, readings and workshops His popularity is such that seminars are usually always at sell-out capacity and the private readings are booked ahead for at least two ½ years.

To experience Anthony’s special brand of ‘crossing over’ first-hand, take the opportunity to go to one of his seminars. The connection’s Anthony makes at his seminars is really something to be experienced, and not just by those receiving the connection. Once Anthony opens the door between this world and the next, anything can happen. Without fail, the dearly departed are the first to come through—each with a message of love or comfort for a loved-one in the audience. Pets too, are not shy in coming forward. They bound in, usually straight through the middle of reading, wagging a tail or purring with love. The calamity that unfolds is both entertaining and comforting. Yet, within each individual’s message of love rests a solution for everyone. Revelations given and predictions made throughout the night will take audiences on a spellbinding journey both emotionally and spiritually.

**Guaranteed to leave audiences with the message that — spirit can and will communicate with the living.**
